

Sun Safety Criteria

To complete the Skin Cancer Prevention “focus area” this year you must complete one of the following criteria.

1. Promote sun safety by having a Funky Hat Day.
- ★ 2. Create a policy that encourages teachers and staff to promote sun safety when they are outside. Sun safety school policy would encourage students, teachers and staff to protect them from the sun when they are outside.
3. Promote sun safety for all grades.
4. Become a SunWise School.

Please let the Cancer Prevention and Control Program know if you choose to do the Sun Safety criteria. They're available to help you in any way you need. Contact:
